

## Planning example Mapet, Herrenberg

From "A" to "Z"...

...during the construction of this fitness complex, we were involved both in creative and functional planning besides being commissioned to supply large parts of the interior decoration. The benefit of conception and production being carried out by one company is revealed by the continuous appearance of the rooms, the harmonious combination of the materials, matching connection details and the fact that it was completed on schedule.

## Vision impossible?

Not in the slightest. Besides classic planning, we use all available technical aids upon request. Thus, we are able to present our customers our ideas as early as possible and in a lifelike way. For this purpose, animations of existing rooms prove to be just as useful as the demonstration of virtual worlds. Within the scope of design contracts, we make these decision-making aids available to our customer whenever this is technically feasible.

An understandable desire for change...

Presentation/visualisation of what would be possible with only slight alterations to the existing facilities and at low cost...

Appearance after the alterations...
